

New York June 2^d 1871

My dear Dr

I regretted that business prevented
joining you again yesterday afternoon; but the
interruption to our conversation was caused by
business of importance relating to some commer-
cial transactions of some of my relatives, &
the detention was such, that when I follow-
ed you, there was no chance of overtaking you.
I was much disappointed at the interruption
as I had many things to say to you, which
now must be postponed until we can meet.
By the bye I believe I led you into an error
in regard to the conversation had by one of my
friends with Col. Thayer: it was entirely with-
out my knowledge; the gentleman had heard
from my brother that I had some distant
views of the ~~to~~ ^{to} ~~visit~~ ^{visit} ~~to~~ ^{to} ~~visit~~ ^{visit}
to W.P. he mentioned to the Col. that in case
you should change your residence, he should be prob-
able the application might be made, when I
afterwards was being informed that I had
introduced the subject. I mention this to satisfy
you that it was not a premeditated thing on my
part: indeed at that time I had no means
decided upon I should be willing to be
to your own case which is a great relief.

after the unreserved common consent I have made
to you from time to time - you owe it to me to
keep me advised as to the plans you shall adopt
that I may accumulate my measures accordingly.

The matter of considerable consequence & one of
peculiar interest to Mr. Cotton is the how you propose
as to the other persons besides Mr. Hitchcock, to whom
we should send the boxes when they are to come down
from the Post: we spoke slightly on this subject,
but our ~~attention~~ was turned from it to other
affairs, & my sudden separation prevented our
renewing it: you have conducted most of the
home correspondence, & therefore best know
who will send us the most valuable & (as far
as you do the importance) - The earliest returns
give me a list of several names in the order
of transmission, & it will answer for future
as well as the present occasions. Holmes of Maine
is a defaulter, & I must endeavor to find leisure
to brush up his memory; as he owes us, we must
not incur his name in the list.

Have you a list of the minerals which you have
labelled in each box? A copy of this it will be well
to have to add to those which I shall make out from
the numbers on the paper you have given me.
Do not let your deputy neglect to put the boxes
on board the boat on their return & direct the Capt.
to send them to me, if I should be able to call for them
on their arrival.

I have been so unwell for some time that
as to make me desirous to visit the country
for a few days; I sh^d be pleased to make an
excursion to your place again, but I fear it is
not so practicable; indeed I suppose I sh^d
find great difficulty in obtaining accommodations,
as the excursion must have had a great number
of visitors to the Port.

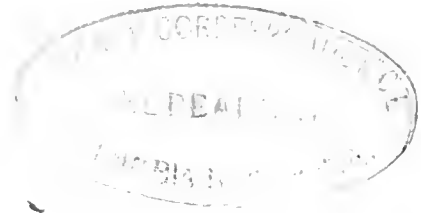

With respects to Mrs E

I am very dear to

In haste

Yours truly

J. B.

Let me hear from you as soon as you

Dr John Barry

W. B. Barry

New York June 14th 1827

My dear Doctor,

I thank you for your letter of 6th - which by the way did not reach me so soon as it ought to have done by two or three days..... If I say I hope you may succeed if I do not, you will not doubt my sincerity, - the you would, if my wishes were expressed without that exception; let me say however, that were I certain I should be your success at W.P. I do not know that I should not most heartily wish you to succeed here, without exception - For you suggest me my ~~the~~ preparation of my papers I also thank you; I shall do so of course, and any to the Southward, until the other matter is decided indeed I shall wait you, according to promise, to send me your influence, when I send Whittier. - The subject, as I have already told you, has been mentioned to Col. Thayer, but for some it has been only as a contingent matter, - ⁱⁿ case Dr Torrey should remove from the Academy, as it is said he has contemplated to do - this you know you had yourself suggested to the Col (as you told me) as a thing which might happen: so that at any time ~~you~~ mention the matter to you, I trust you will not forget your friendship: you can do a great deal for me there. ^{It} I take it for granted that you feel in regard to our opposition at Albany, as I do - ~~so~~ you succeed, (at by the way I consider scarcely a doubtful point) - altho I may regret say our failure; I

case truly any it will not excite the slightest unpleas-
ant feeling towards you: on the contrary - to prove my good
wishes, I may now say, - that I shall probably be able
to save you some expense, & aid your preparations
for winter, by the use of ^a considerable portion of
my Chert appls; - most of which indeed will be of compar-
atively little service to me, (except to "raise the wind") & so
I remove to W.P. & some of it in any case, I shall be able
to share you. & I only wish all opportunities were conducted
with as little ill feeling, as I know to exist on the present
intensions on one side; & I fully believe to exist on the other.
- I wish you to suggest to me the course I sh^d pur-
sue in writing applications. -

The boxes I have received. that is to say - two packages,
one of which was numbered 384 & the other 2. Have you
not been able to trace the other? The lists for the three
in my possession are made out, & I very much wish you
w^d suggest the names of persons to whom they sh^d be
sent; if either of these is for Fletcher, as you know
their contents; say wh^{ch} shall be his: I sh^d like to forward
them soon. . . . With regard to Besock's Catalogue;
I wish you w^d direct diligent search to be made for the
deficient sheet; there are a considerable number of the
Spec^s wh^{ch} fell to my share, contained in this absent portion.
I find also some of the numbers which are contained
in the part I have, ~~not~~ ^{not} correspondent with the names
assigned them; ^{or at least, ~~or~~ doubtful} these I have laid aside, & sh^d wish to look
over them with you, when you ~~are~~ ^{are} over. Shall you
visit the city soon? if so, & you can spare a few minutes
let me see you, I may you, either at apt or my residence.

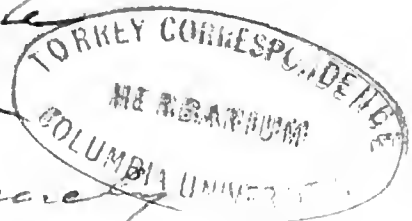

I should like to borrow from you the book of localities
of Dr Robinson; will you lend it me for a short time?
Mr Chas King intends to pass a day or two at the Post
during the summer; if you find it to be, or
to any other acquaintance I may have there,
it will reach me.

Let me hear from you, as soon as of leisure will
permit; Mrs R desires to be remembered kindly to
Mrs T & yourself.

Believe me in haste

Very Dear
Yours sincerely

J. T. R.

J. Stephen Rogers

N. Y. June 15th 1827
Sat 7th aft

My dear Dr

I thank you kindly for your letter of the 15th which is in the moment put into my hands. By its date I perceive that you could not have rec^d when it was written, my last letter; ~~for~~ ^{since} you will perceive the reason of my not having having written to you at an earlier date, - viz that yr letter announcing yr ~~intention~~ ^{intention} to be a candidate at Albany did not reach me as soon as it sh^d have done by several days. You will also perceive that I have determined to stave for the place at W.P. as I consider it scarce by a doubtful point, that you will have yr situation here. lest I may not have expressed myself decidedly as to my wishes, (it was written in great haste, & I scarcely recollect the phrasology), let me ask the favour of you to say to Col Thayer, that I sh^d feel myself highly gratified, to be attached to the establishment, sh^d your place become vacant; sh^d it prove agreeable to his views that I sh^d become yr successor, I sh^d feel grateful for such support.

as he may think proper to afford. I sh^d have
written decidedly on the subject long ere this, but
that I felt myself delicately situated & restrained
to you. Let me beg you to make all the inquir-
ies you can, & let me know ^{in detail,} what course I sh^d
pursue. It is needless for me to say that I feel
much anxiety on the subject; the practices of
my profession, & confinement to the city are becoming
every day & hour more irksome; & had success
attended my application at Albany, I sh^d have
availed myself of the opportunity of devoting my
attention to my favourite branch of study, leaving
the city during the summer. — Do you think
it would be advisable for me to address a

letter to Col. Frazier on the subject? — You
will oblige me by letting me hear from you, as soon
~~as you can~~ ~~as you can~~ ~~as you can~~ ~~as you can~~ ~~as you can~~
as you have communicated my
~~request~~ ~~request~~ ~~request~~ ~~request~~ ~~request~~ to wish to be considered
a candidate for the situation; or sooner if the
opportunity of conversing with him be delayed, &
any thing of interest occurs.

Mr. Payne w^d be highly gratified, as I am
authorized by my conversations with him to say,
— to be a successful candidate for the Chap-
laincy at the Point; & there are several, whose
intelligence, piety, gentlemanly deportment,
& other qualifications, — would render their
services more honourable to the Institution,

or their society a greater acquaintance to the circle
at the Point than this gentleman.

Excuse my scrawl, as I am writing in great haste
lest I should lose the opportunity of the present mail.

If my last letter have reached you, will you
oblige me by attending to one or two little memo-
randa it contains.

In haste

I am very Dear Sir

Yrs truly

New York June 16th 1827
at 7 Eve

My dear Dr

By the mail to-day I wrote a few
hasty lines in reply to your favor of 15th; since
despatching them it has appeared to me that
it is advisable to announce to Col. Thayer him-
self, my wish to be considered a Candidate should your
place become vacant; I have therefore, by the
gentleman who takes charge of this, addressed a
few lines to the Col. stating that having learned
there is a probability your situation may be-
come vacant, I beg leave in that event, to be con-
sidered a Candidate. I was particularly induced
to do this for the return of your letter, that the Col.
had informed you - altho my name had been mention-
ed to him there had been no direct application made
in my behalf. I presume too that this course will
concide with your views; - ~~from your~~ remark that
he was particularly desirous you should recommend some
person as if successor; inferring from this that you have
made known to him your intention to resign. I have re-
ferred him particularly to you for information as to
my qualifications, & under existing circumstances, an-
nounced that you may greatly further, perhaps
insure my success. I must therefore repeat my re-
quest that you will use your strongest efforts to ac-
complish this object. I should wish to learn from you
as early as possible, whether it will be necessary for
me to procure & forward other testimonials, & in gene-
ral, what course is most advisable for me to pursue;

Mrs Rogers comes here on Tuesday aftn in the Steamer for
Boston, & I think it not unlikely that I shall be obli-
ged to accompany her as far as Providence; in this
case I shall return by the same boat, & be again, no
accident occurring, in New York on Friday. And there be
any thing important in the mean time, please to do, let
me hear from you; a private opportunity may offer in such
case for sending a letter so as to reach me by, or before,
noon on Tuesday; at all events, let me hear from you
on my return.

Have you caused your assistants to make any further
search for the deficient sheet of Busché's catalogue? I have
not yet found. Have you not yet obtained any intelli-
gence respecting the missing box? May it not have been put
on board the ship without the Capt's knowing it?

I shall hope to have a line from you on Monday
in reply to my letter if it did not appear to have reach-
ed you when y^r was written. Mrs R. - remains with
me in remembrance to Mrs T.

Yours very truly
as ever
J. W. C.
